

HEALTH MANAGEMENT SOLUTIONS ACROSS THE SPECTRUM OF HEALTH

Telligen is a population health management company committed to delivering solutions that improve health outcomes. Our products and services range from individual-level support such as health coaching and case management to national-level support such as helping federal agencies, like the Centers for Medicare & Medicaid Services, with program design, implementation and evaluation. No matter the scale of the project, we help our partners and clients make informed decisions to achieve better health quality and value.

We deliver customized solutions that improve the quality and cost-effectiveness of healthcare and help people live their healthiest lives.

**WELLNESS
SOLUTIONS**

Working with state and federal governments and private employers, our diverse portfolio exposes us to the full spectrum of health. This powerful insight gives us the opportunity to adapt our expertise across market segments and deploy best practices to improve health outcomes for millions of people nationwide.

FEDERAL HEALTH SOLUTIONS

Quality improvement, learning systems, data analytics and IT solutions for federal agencies and national programs measuring quality and cost-effectiveness.

STATE HEALTH SOLUTIONS

Configurable cost-containment strategies that help state Medicaid agencies meet their goals related to the health of their populations and improved care delivery.

HEALTH & WELL-BEING SOLUTIONS

Working with employers, unions and Taft-Hartley plans to understand their population and provide solutions to reduce costs and obtain better health outcomes.
