

AFTER THE STORM

TELLIGEN CAN SUPPORT YOU WITH YOUR
AFTER-ACTION REVIEW & RECOVERY PLANS
AT NO COST TO YOUR ORGANIZATION

Effective disaster management quality improvement methodology can significantly reduce the loss of life, property damage and socio-economic disruptions caused by natural or man-made catastrophes.

WHAT IS AN AFTER-ACTION REVIEW?

An After-Action Review (AAR) is a comprehensive analysis and evaluation conducted after an emergency response or disaster event.

The purpose of an AAR is to review the actions taken during the incident, assess their effectiveness, identify strengths and areas for improvement and develop recommendations for future responses.

This process involves gathering input from all participants and stakeholders, often through interviews, surveys and debriefing sessions.

Telligen can provide **no-cost** coaching for organizing after-action reviews and recovery plans or give feedback on your current plans.

HOW CAN I REQUEST SUPPORT?

Brian Feist (bfeist@telligen.com) is Telligen's subject matter expert for emergency planning and can help your organization stay prepared.

Brian has over 15 years of healthcare experience as an EMT and ER nurse.

TELLIGEN'S EMERGENCY PREPAREDNESS ASSESSMENT

Telligen has created a [comprehensive assessment](#) that is designed to assist nursing homes to evaluate their emergency readiness as well as identify gaps within their current plan.
